WHAT WE'RE LEARNING

Science and Social Studies

One thing that makes first grade special is our Science/Social Studies switch! Mrs. Devol teaches science to both classes, and Ms. Gregory teaches social studies to both. This week, we started our switch. In **science**, we learned about what scientists do. We learned about the different branches of science, exploring forensics, engineering, and more! We introduced the concept of **social studies** by reading *Around the World in a Bathtub*. It helped us understand that in social studies, we learn about people, how we are the same, how we are different, and how we interact.

Math Story of the Week: solve at home and bring to school!
