

First Grade Newsletter

On February 14th we are doing a friendship project **instead of** passing out Valentine's Cards. We will send home the project materials and directions in today's Friday folder.

Please do not buy Valentine's Cards.

In science we learned about natural and artificial light. We also watched a video about bioluminescence.

We still need more paper towel rolls and toilet paper rolls for an upcoming project. Please send them into school.

In Writer's Workshop we are doing Non-fiction writing. This week we wrote strong introductions.

**Exploratorium
Field Trip
Friday Feb 8th**
