

First Grade Newsletter

We had a wonderful field trip to the Exploratorium. Thank you so much to our parent drivers and chaperones! In addition to seeing the sound and light exhibits we saw a tornado, learned magic tricks, watched a cow's eye dissection, and made creations in the Tinker lab.

In math we are learning about measurement.

In science we watched a video about the lunar eclipse. Then we continued learning about light by doing a reflection experiment and comparing and contrasting natural and artificial light.

Instead of passing out Valentine's in class we will be doing an in class Valentine's Day project. Please do not send your child to school with Valentine's cards.
