

First Grade Newsletter

In math we are solving problems by counting groups of things. For example, how many eyes on 5 people? How many fingers on 9 people? How many toes on 5 people?

We talked about animal superpowers, how animals have special skills and how humans can use those skills as inspiration to solve problems.

Thank you to the parents who drove on our field trip to Chabot Space Center! We saw a planetarium show, The Secret of the Cardboard Rocket, did a Moon Workshop with a scientist, and walked around the museum.

Community BBQ today 5-8 at Rocky Graham Park. Tacos & ice cream!

Upcoming Events
6/5 Beach Day
6/7 Field Day
