

First Grade Newsletter

In social studies with Ms. Gregory we started thinking about community by talking, drawing, and writing about our community.

When you are in the car have your child look at the words on signs noticing the vowels, syllables, blends (br, gl, sm, fr, pl) and digraphs (sh, ch, th, wh)

Ways to help your first grader be independent
Give them regular daily chores

Let your child try to do something new and let them struggle with the task without rushing in to help them

Hold them accountable. If they spill something let them clean it up. If they get something out make sure they pick it up.

In science, we dissected owl pellets with Mrs. Devol.
