Curriculum Corner

MATH

In Unit 3 students have been working repeatedly on finding equivalent fractions and being able to compare the value of fractions between 0 and 1. These are skills that are still challenging for many students, but they are slowly gaining proficiency. Next week we will begin with adding and subtracting fractions.

ELA/SOCIAL STUDIES

This is the final week of preparations for our social studies projects. Students are furiously finalizing their work and editing their writing. Next week students will be presenting their projects to the class. Over the weekend, some students may be doing some final polishing of their projects. Editing is a great way for parents to get involved with helping students on their writing.

SCIENCE

For Mr. Baker's class next week is project presentations. We've been finalizing our projects in class this week. Students will be presenting between Monday and Thursday.
