## Curriculum Corner

### Humanities

Hello Families!

Our essential question this week was: How did the development of agriculture change daily life in the Neolithic Age? We are studying about the early human settlements in the fertile crescent.

In ELA we continued our reading of Holes. Students wrote essays about our experience digging our hole. The emphasis was on the use of descriptive language in a narrative. Essays were returned for students to take home.

Thank You,

Ms. Rizzo

### Math/Science

Happy four day weekend families!

This week in math we dove into multiplication with two digit x 3 digit numbers, and also continuing investigating area and perimeter.

In science, we've discussed mass extinctions, and what adaptations are.

Have a great weekend! Looking forward to seeing some of you!

Best,

Ms. Lindsey
