- ✚ Please remember to return Friday folders!!!
- ✚ Please limit Dreambox practice at home to 20 minutes a week.
- ✚ Please write your child's name on sweaters and jackets they wear to school.

Ms.Perez & Ms.Alison Highlights

This week we:

- In Language Arts we continued to eat the alphabet, tracking and practicing the beginning sounds of everything we ate. The kids really love this!
- We began talking about Fall and learning about pumpkins. We wrote down all of the things we know about pumpkins, and what we would like to learn, and we also painted our own pumpkins, big and small.
- In Math we continued using Dreambox. Our math word of the week was "quantity". We learned how much is in a number, and practiced recording quantities in our math books. The students also made their own pumpkin seed ten frame books. The kids are getting much more comfortable on Dreambox.

* Field Trip October 18 to the Great Peter Pumpkin Patch, we still need drivers! Please contact Megan if you can drive and chaperone.

Ms.Hope & Ms.Mayes Highlights

This week we:

- In Language Arts we continued letter of the day. We are working on learning how to recognize, write and make the sound of each letter. We started Hand Writing Without Tears and we wrote our first morning message using the sight word see.
- In Math we introduced roll and record- a game to help us practice number recognition and writing numbers. We also learned grab and count to practice representing quantities of numbers.
- We learned about the artist Paul Klee and painted with primary colors. The students loved experimenting with colors and found unique ways to express their ideas/tell stories about their artwork.
- We continued learning about Fall. We talked about what the word *harvest* means. We also started learning about why leaves change.
