Valentine card exchange and Cookie Decorating Festivities will take place on 2/14 from 1-2. You are more than welcome to join us if you can. We will send out final details on Monday.

**If you plan on passing out Valentine's please make sure to include everyone in your class.

Ms.Perez & Ms.Alison Highlights

This week we continued to learn about the ocean zones. If you have a chance to stop by the classroom, you'll see our ocean zones on the wall with the beautiful pastel and water color sea creatures that the kids painted. They are amazing artists!

We reviewed rhyming by cutting and sorting pictures and working in small groups with a rhyming match.

The students learned about different units of measurement and used math cubes to measure. They all did a great job working on Dreambox.

The 100th Day of School celebration was super fun! The kids joined 1st grade and took part in several teacher organized 100th day activities. 100 fruit loop necklaces and sunglasses were a hit! Special thanks and shout out to Sanna, Alex's Grandma, for coming and helping out. We started counting down the days left we have in school and there are only 72 days left of kindergarten, can you believe it?!

We spent some time learning about President's Day and made some super cute George Washingtons and Abraham Lincolns that you can see up on the wall.

Ms.Hope & Ms.Mayes Highlights

We had a very busy and fun week! We celebrated Chinese New Year by learning about traditions, making lanterns and eating dumplings. It was also the 100th day of school! We did 100th day exercises and made fruit loop necklaces glasses. Mr. Chris visited our class and showed us some pretty cool creatures!

We continued learning about short vowel sounds. We met Miss I who is itchy and witchy and also giggles, wiggles and tickles. We also met Miss O who is oooopositional and Miss U who goes everywhere with her uuuumbrella. We practiced building short vowel words that have these sounds.

In Math we started learning about story problems. We also created a penguin picture by following color code directions to identify numbers to 100.

We learned about the famous artist Kandinsky and made our own beautiful concentric circle heart art.

We attached list of kids in our class to the homework packet sent home in Friday Folders.
