Holiday Performance and Breakfast

8:45am 12-21-2018

Both classes will have a holiday celebration in their classrooms. Please sign up to bring something yummy to share!

Ms.Perez & Ms.Alison Highlights

This week :

- Hats off to all of our students this week for doing such a great job reviewing beginning sounds! We did a beginning sound assignment that required a lot of focus and they really worked hard on it.
- In Math we continued making progress with Dreambox. If you need the link and login information to use it at home, please shoot me an email. I would love to see everyone using it over the holiday break. We learned about the difference between 2D and 3D shapes, and built different shapes of our own using popsicle sticks.
- In Science, we had so much fun doing a really cool experiment using our senses. The kids had to guess what was in smell and sound cups.
- In Art, the kids made super cute Olaf snowmen that you can see hung up in class.
- Thank you so much to our drivers and chaperones that came to the Discovery Museum! The kids had such a fun time putting their knowledge of "push" and "pull" to the test. I have passes to the Discovery Museum. If you would like one, please contact me.

Reminders

- If you have not yet practiced page 1 from the Sight Word book, please practice with your child over the weekend and return it on Monday so they can start our B.O.B. Book program.

Ms.Hope & Ms.Mayes Highlights

This week :

- We had a great time at the Discovery Museum and learned a lot about forces and friction. Thank you so much to our drivers and chaperones!!!
- We read the mini book *I Love Cookies* and practiced finding the sight words this, is, a, it, he and she. This book along with *I can Run* was sent home in Friday folders today. Feel free to read them with your child and ask them to show you the words they know!
- In Math we worked on filling hexagons by combining different 2-D shapes. The kids also made great progress on Dreambox.
- In Social Studies we learned about community helpers. We talked about what the word *community* means and the kinds of jobs people have that help the people in a community. The students wrote about what community helper they'd like to be.
- We continued our Gingerbread project. The kids are getting so excited to share their project at the holiday performance!

Please take a minute to chat with your child about personal space and appropriate relationships with friends in Kindergarten. Thank you!

Reminders

- ✓ **Please remember to send Friday folders back to school!**
- ✓ We will send home information about our Reading Eggs program so you can use it over the winter break.
- ✓ Remember to practice your sight words and send the Sight Word Book back to school when your child is ready to read the words to a teacher.
