

Willow Creek Academy

Board Policy 5141.52

Suicide Prevention

The Governing Board recognizes that suicide is a major cause of death among youth and should be taken seriously. In order to attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop preventive strategies and intervention procedures. The Superintendent or designee may involve school health professionals, school counselors, administrators, other staff, parents/guardians, students, local health agencies and professionals, and community organizations in planning, implementing, and evaluating the district's strategies for suicide prevention and intervention.

Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with the school and is characterized by caring staff and harmonious interrelationships among students.

Suicide prevention training for staff shall be designed to help staff identify and respond to students at risk of suicide. The training shall be offered under the direction of a district counselor/psychologist and/or in cooperation with one or more community mental health agencies and may include information on:

1. Research identifying risk factors, such as previous suicide attempt(s), history of depression or mental illness, substance use problems, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe stressor or loss, family instability, and other factors.
2. Warning signs that may indicate suicidal intentions, including changes in students' appearance, personality, or behavior
3. Research-based instructional strategies for teaching the suicide prevention curriculum and promoting mental and emotional health
4. School and community resources and services

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, he/she shall promptly notify the principal or school counselor. The principal or counselor shall then notify the student's parents/guardians as soon as possible and may refer the student to mental health resources in the school or community. Students shall be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

The Superintendent or designee shall establish crisis intervention procedures to ensure student safety and appropriate communications in the event that a suicide occurs or an attempt is made on campus or at a school-sponsored activity.
